When user clicks on call tab he should see screen like the one we have designed. If the call is within 24 hours it should show time, if it is within one week, it should show days (Monday-Sunday), if it is before one week it should give date.

1b. The font for timings should be grey as in design.

Missed call should be seen in red colour in missed call section. All call should show all the calls including missed call.- 6hr ( This take time because we need to show image of user)

Timing should be correct based on which region or location or country user is in. –

When user clicks on notification tab he should see screen like the one we have designed
